

BLUESILTM
AEROSOL SIL JET

Industrial release

Description **BLUESIL AEROSOL SIL JET** is a mould-release spray, containing a polydimethylsiloxane oil.
This product is CFC free.

- Advantages**
- Easy to use.
 - Effective at low doses.
 - Good surface finish of moulded articles.
 - Far fewer rejects.

Nature and general uses Temporary mould-release agent (1 or 2 cycles) for plastics and non-silicone rubbers.
Release agent and lubricant for a wide temperature range. It is recommended for associations of metal with elastomers and plastics.
Rubber to metal release agent that stays effective at very low temperatures.

Processing The aerosol should be applied on perfectly clean, grease-free surfaces so that the film spreads well.
To obtain an even coating, hold the can between 25 or 30 cm from the surface to be treated and spray with a smooth back and forth motion. This produces a thin, even, anti-stick film.
Avoid any surplus, which might be detrimental to the moulded or injected material.
Frequency of spraying of the **BLUESIL AEROSOL SIL JET** will be determined by practice, depending on the complexity of moulds and the type of product moulded.

Instructions for use This aerosol uses a propane/butane mixture as propellant gas, together with inflammable liquids as solvents.
It is essential to work in a well ventilated room during and after use of the product.
Smoking is prohibited during and after the operation.
Do not spray near a flame, an incandescent body or surfaces which could generate sparks (i.e. presence of electrostatic charges).
Do not pierce or burn after use.
THE **BLUESIL AEROSOL SIL-JET** SHOULD NOT BE EXPOSED TO SUNLIGHT OR TO A TEMPERATURE EXCEEDING 50 °C.

BLUESILTM AEROSOL SIL JET

Packaging **BLUESIL AEROSOL SIL JET** is supplied in cartons of 12 cans of 650 ml (500 ml net).

Storage and shelf life When stored in its original packaging at a temperature of between + 2 °C and + 30 °C, **BLUESIL AEROSOL SIL JET** may be stored for up to 24 months from the date of manufacture (expiry date). Comply with the instructions and expiry date marked on the packaging.

Past this date Bluestar Silicones no longer guarantees that the product meets the sales specifications.
